

SAN DIEGO COUNTY RECORDING NOTIFICATION SERVICE

NEW & FREE

RECORDING NOTIFICATION SERVICE OFFERED FROM SAN DIEGO COUNTY.

San Diego County is offering a new free service, Owner Alert, to notify the public via email when a document is recorded against their property (pursuant to a registered name and/or APN.) This is a way to make sure no fraudulent documents are recorded to your Title.

The Recording Notification Service is available to alert subscribers when a document is recorded into the County of San Diego Official Records. If subscribed to this service, subscribers will receive notifications through automated e-mails when a document is recorded containing the indexed name and/or Assessor's Parcel Number (APN) registered. Subscribers can register up to five (5) different names and/or five (5) APNs per registered e-mail address. There is no charge for this service, and subscribers may unsubscribe at any time.

Please note this service only applies to documents recorded after your subscriber registration has been activated.

To search the County of San Diego Official Record index from 1970 to present, please visit: <https://arcc-acclaim.sdcounty.ca.gov>

To sign up for this service, please visit: <https://arccprn.sandiegocounty.gov>
